

Anti-Seize Paste

Product Code: ASP

PRODUCT DESCRIPTION

A high temperature **anti-seize paste** to protect metal interfaces against seizure.

PRODUCT USE

Anti-seize paste is recommended for all jobs where speed of assembly and dismantling is essential, e.g. nuts and bolts, solder tips and any type of joint that is going to be exposed to extremes of temperature and environment.

FEATURES

- * Protects against seizure, heat freeze, gall and leakage on mating surfaces, ferrous or non-ferrous.
- * Protects against extremes of temperature and environmental attack (up to 700°C).
- * Pure copper base ensures long life.
- * Lowers friction - reduces tool wear and thereby reduces maintenance costs.
- * Permanent seal not affected by contraction, expansion or vibration.
- * Non-melting and can be easily applied to hot surfaces. Will not run, drip or settle out.
- * Easy and economical to apply.

PACKAGING

2ml Syringe
